

ChiliProject - Bug # 1118: Missing caption in file redmine.rb

Status:	Closed	Priority:	Normal
Author:	Jan Kowalski	Category:	Translations
Created:	2012-08-13	Assignee:	Felix Schäfer
Updated:	2012-12-16	Due date:	

Remote issue URL:

Affected version:

Description: Hello.
I found the missing piece of code in the file \lib\redmine.rb
He was responsible for displaying the correct name on the menu for other language.

```
<pre>
  menu.push(:time_entries, { :controller => 'timelog', :action => 'index' }, {
    :param => :project_id,
    :if => Proc.new {|p| User.current.allowed_to?(:view_time_entries, p) }
  });
  menu.push(:new_time_entry, { :controller => 'timelog', :action => 'new' }, {
    :param => :project_id,
    :if => Proc.new {|p| User.current.allowed_to?(:log_time, p) },
    :parent => :time_entries
  })
  menu.push(:time_entry_report, { :controller => 'time_entry_reports', :action => 'report' }, {
    :param => :project_id,
    :if => Proc.new {|p| User.current.allowed_to?(:view_time_entries, p) },
    :parent => :time_entries
  })
</pre>
```

In each section is missing an entry:

```
<pre>
:caption => : ... ,
</pre>
```

These captions are not in the language files and show only in english => Time entries, New time entry, Time entry reports

- Status changed from Open to Needs more information

- Target version changed from 4.0.0 to 3.4.0

To clarify: menu entries implicitly use a caption of the form @label_name_of_the_menu_entry@ if none is set, thus those 3 entries have the @label_time_entries@, @label_new_time_entry@ and @label_time_entry_report@ captions.

Carlos was so kind as to provide the portuguese translations for these, and we've added the strings to the english locale file too (which means the

strings will be copied over from english to all other locales before the next release). Jan, is there another language you'd like to contribute a translation for?

2012-11-26 01:01 pm - Jan Kowalski

Polish :)

2012-11-26 03:18 pm - Felix Schäfer

Jan, if you can contribute them (see commit:ce5524ba for an example) I'll happily merge them.
