Affected version:	master
Description:	The e-mail notifications setting "Only for things I watch or I'm involved in" currently only sends notifications for issue updates. This has confused some of our (Plan.io) users because they didn't receive notifications for other things than issues they'd watch.
	Fix is upcoming.

Get notified about other watched things than issues #1216

When I select "only for things I watch or am involved in" as my Email
notifications setting, I want to get notified about everyhing I watch,
not just issues. The previous setting would only notify me about issues
I'm involved in, now I will additionally be notified about everything I watch.
